Mouse anti-B-cells, clone MB2 (Monoclonal)

Clone no. MB2

MONOSAN

Additional info

Marker for lymphoma diagnosis. MB2 reacts with all B-cells. Further positive reaction with epithelia and endothelium was observed. MB2 recognizes neuraminidase-resistant cytoplasmic 28 kDa antigen, expressed strongly on B-cells and weakly on mature T-cells; no reaction with immature T-cells; negative staining with plasmacytomas.
Positive control: tonsil.
