

Polyclonal antibody against *Toxoplasma gondii*

Clone no. -

MONOSAN Ready To Use

Product name	Polyclonal antibody against <i>Toxoplasma gondii</i>
Host	Rabbit
Applications	IHC-P
Species reactivity	human
Conjugate	-
Immunogen	Unknown or proprietary to MONOSAN and/or its suppliers
Isotype	-
Clonality	Monoclonal
Clone number	-
Size	7 ml
Concentration	n/a
Format	-
Storage buffer	Tris Buffer, pH 7.3-7.7, containing 1% BSA and <0.1% Sodium Azide
Storage until expiry date	2-8°C

FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC PROCEDURES

Polyclonal antibody against *Toxoplasma gondii*

Clone no. -

MONOSAN Ready To Use

Additional info

Toxoplasma gondii is a spindle-to-oval-shaped protozoan which presents as an infection in humans of various sorts. The cyst (30 µm) and trophozoite (7 µm) stages can be identified in humans in such cases. This intracellular parasite is transmitted via raw/undercooked meat, contaminated soil, or by direct contact with an infected host. Infection in humans is usually associated with a variable degree of immunosuppression such as in pregnancy or immunosuppression due to various drugs.
