

Product datasheet MON5042

MONOSAN[®]

Mouse anti-Biotin, clone BIO-8 (Monoclonal)

Clone no. BIO-8

MONOSAN

Product name	Mouse anti-Biotin, clone BIO-8 (Monoclonal)
Host	Mouse
Applications	IHC, ELISA, FC
Species reactivity	tag
Conjugate	-
Immunogen	Unknown or proprietary to MONOSAN and/or its suppliers
Isotype	IgG3
Clonality	Monoclonal
Clone number	BIO-8
Size	1 ml
Concentration	100 ug/ml
Format	-
Storage buffer	Tissue culture supernatant with sodium azide
Storage until expiry date	2-8°C

FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC PROCEDURES

Mouse anti-Biotin, clone BIO-8 (Monoclonal)

Clone no. BIO-8

MONOSAN

Additional info

The antibody recognizes an epitope that is exposed by protein-biotin and nucleic acid-biotin conjugates. The antibody can be used in molecular biological tests and immunohistology. The antibody permits the formation of antibody-biotin-streptavidin-enzyme complexes thus enhancing the sensitivity of the detection system.
