

*Mouse Anti Human milk fat globulin*

Clone MFG-06

Cat. no. MON 2060

---

**Specificity**

MON 2060 reacts with a 40-45 kDa glycoprotein in human milk fat globule membrane preparation.

*Immunogen:* Human milk fat globule membrane preparation.

**Immunoglobulin type**

Mouse IgG1

**Use**

This antibody can be used for immunohistochemistry (paraffin-embedded tissues) and Western blotting.

**Presentation**

100 µg purified antibody (1 mg/ml) in Phosphate Buffered Saline (PBS) containing 15 mM sodium azide.
